SUMMARY

Computer Science undergraduate in Artificial Intelligence and Machine Learning **with an understanding of** Python and machine learning concepts**. Have worked on academic projects involving** data preparation and simple deep learning models **as part of coursework.**

SKILLS

Programming Languages: C, C++, Python, Java (Basic)
Web Basics: HTML5, CSS3
Databases: SQL, MySQL (basic usage)
Machine Learning: TensorFlow, Kera's, CNN, RNN, LSTM (academic level)
Tools: Git, GitHub, Jupyter Notebook
Soft Skills: Problem Solving, Communication, Time Management

EDUCATION

Bachelor of Engineering – Computer Science & Engineering (AI & ML)
Vidyavardhaka College of Engineering | 2022 – 2026
CGPA: 9.05

PUC – Science
Sheshadripuram PU College | 2020 – 2022
Score: 94.5%

SSLC
Rotary Brindavan School | 2019 – 2020
Score: 95.2%

PROJECTS

***Stickman Shootout with Adaptive AI** | **Tools:** Python, PyGame, Flask, Q-Learning
Built a 2D game as an academic project to understand **reinforcement learning** concepts and implement the game logic using Q-Learning.

***Instagram Emotion Recognition System | Tools:** Python, TensorFlow, Keras, NLTK, Instagram Graph API
Implemented an **LSTM-based NLP model** to study emotion classification from text, focusing on preprocessing and model training .

***lncRNA–Disease Association Prediction | Tools**: Graph Learning, MetaPath2Vec, GCN
Studied graph-based deep learning methods for lncRNA–disease association prediction using heterogeneous networks, focusing on structure-based and **meta-path-based node embeddings**.

CERTIFICATIONS

Coursera: Software Development Lifecycle, Alibaba Computer Org & System Design, Data Visualization with Tableau
Infosys: Programming in C ,Python Programming Fundamentals
IBM: Python for Data Science and AI, IBM SkillsBuild Summer Internship – with CSRBOX (15th July – 5th August 2024)

ACHIEVEMENTS and CO-CURRICULAR

- **Outreach Head (Vectorflow club) :** Coordinated outreach activities introducing pre-university students to basic coding and AI concepts through workshops
- **HackSprint 5.0 (PES College of Engineering, Mandya):** Participated in a 24-hour national-level hackathon and presented an AI-based academic project.
